## Special Services for Miners.

Rev. Chas. R. Jones, of Whitwell, was here Monday. He called on Rev. Hibberts while in the city. He is doing some good work at Whitwell and is trying to revive church interest, which has been on the decline in that town for the past few years for various reasons. He is now inaugurating a series of special services for miners on first and third Sundays of each month at 3 p. m., in an endeavor to get more attention paid to religious matters by the miners. The movement was suggested to Rev. Jones by a prominent mechanic connected with the works, who suggested that cards be printed inviting all the miners to attend the services and further showed he was more than talking by saying that he would pay for them. The result was that yesterday when the men were paid off every miner or miner boy received a neat card asking them to attend the Special Service at 3 o'clock, and the News hopes to get a report that the M. E. Church, South, of Whitwell, was filled with miners and their friends, who are also invited, on these occasions. In the hazardous business in which he is engaged the miner needs in a special way the influence of religion to keep him prepared spiritually for any misfortune that may overtake him.

## Tracy City.

Special to the News.

I've nothing new at this time, only

a good crowd of Socialists turned out

to hear the Rev. Wm. Martin preach

the third Sunday on Myers Hill. Bro.

Martin preached a powerful sermon

and stayed on earth and among men

from start to finish. He made good

and preached exactly what the Social-

ists believe, spiritually and political-

ly. Workingmen delight to go where

they can hear the truth preached. They

delight not only in a spiritual

interpretation of the Scriptures, but

they believe in a literal application of

the Word to the affairs of life. Men

do hunger after righteousness, or the

right, and expect the church to lead

the way in the deliverance of the

working world from bondage. So we

had a strong and powerful social

sermon from a Methodist preacher.

Next Sunday an old Baptist will

preach another at the Orange Hill

church, and everybody is invited to

come and hear it. A large petition will be sent to Con-

gress from Tracy City in favor of the

disfranchisement of the women. The

standpatters and little shivers won't

sign it. Oh, no, not them. One little

bit of a narrow contracted Methodist

preacher refused to sign the petition.

Well, the people and the world can go

on without such men, and a church

that has such a man as pastor will not

prosper. See if it does. H. H. Manley, an ex-confederate

veteran, was laid to rest in Tracy City

Cemetery Saturday, the 17th inst., by

his old comrades. Comrade Manley

has gone over to join the majority of

his command on the other side. One

by one the vets are leaving to go

hence. Funeral services were con-

ducted at the Christian Church by the

Rev. D. Northcutt, while two lone

sentinels stood guard at the head and

foot of the coffin. Next Sunday at Coalmont Bro. Mar-

tin will preach again. Subject: "No

man careth for his soul." We bespeak

for him a good crowd and good atten-

tion. Go to hear him men and listen

to what he says. The big majority

of you are Socialists and you know

your duty to your brother. Hear

Brother Martin on this important

subject, and see if you have neglected

your brother's salvation. Meet us on Sweeten's Hill Saturday

night next, and let us have a good

Socialist meeting bearing in mind as

we pray so we ought to vote. Social-

ism means the uplift of humanity and

the bettering of conditions, and let us

vote it in August and November. When the weather gets warmer let us

invite the ladies to our meetings, as I

am sure no one desires the betterment

of the masses any more than our good

women do. Knowledge is increasing

as never before and all men know how

they ought to live and how they ought

to treat their brothers. Now vote to

that end regardless of the old parties.

Uncle Tom.

## Shocking Sounds

In the earth are sometimes heard be-  
fore a terrible earthquake that warn  
of the coming peril. Nature's warn-  
ings are long. That dull pain or ache  
in the back warn you the kidneys  
need attention if you would escape  
those dangerous maladies, dropsy, dia-  
betes or Bright's disease. Take Elec-  
tric Bitters at once and see backache  
fly and all your best feelings return.  
"My son received great benefit from  
their use for kidney and bladder trou-  
ble," writes Peter Bondy, South Rock-  
wood, Mich. "It is certainly a great  
kidney medicine." Try it. 50c at

## Third District.

Special to the News.

There are four candidates slated to

run up here for the board of educa-

tion. Green P. Layne, democrat; W.

L. Barber, independent; E. H. Bark-

er, republican, and a dark horse to

be out. His name is to be withheld

from publication at present. The rea-

son we fail to understand. It seems to

me that it is rather early to stir up

this public school question, as it is a

long time until election. It is of little

or no importance to the east side of Se-

quachee river. I fear this school ques-

tion is likely to go into county politics

and affect the candidates in general if

either should attempt to connect him-

self with either faction. C. H. Holloway, Esq., has just re-

turned from Birmingham, Ala., and

reports to me that he was successful

in finding the party that he and At-

orney Stewart, of Jasper, expected to

meet and take his deposition in a land

suit pending in the Chancery Court.

He stated that he and Holloway Bros.

were the plaintiffs and got a 17-sheet

deposition, which he thinks will win

his suit. After the official work was

completed Dr. Seay's brother at Bir-

mingham landed him and Attorney

Stewart in a fine automobile and car-

ried them over the business and prin-

cipal sections of the city of Birming-

ham at a speed of 60 miles an hour.

The Squire said that Dr. Seay was

the fastest automobile driver in the

south, and that it was a perfect show

to view the city of Birmingham. It

was practically in the woods, nearly

all the trees nicely trimmed up, and

there were beautiful streets graded all

over the city, right into the woods,

and was a picture to behold. Dr. Seay's

office covered half an acre of ground

and was the best finished and most

completely furnished medical institu-

tion he ever saw. Owing to the

Squire being tired to a great extent all

cases in the court were passed over un-

til next week. There are several cases

to come up of a sensational nature

which will be fought to a finish.

Sorry to note the condition of

Mrs. Nancy White, who is in a dan-

gerous condition with cancer of the

face. It is impossible for her to last

but a few more months. She is the

mother of R. J. and Rev. J. L.

White, of Tatesville. The latter is the

postmaster and a prominent merchant

at that place. She is also the mother

of the Rev. G. W. White and W. H.

White, attorney, of Whitwell, Tenn.,

and of the Rev. A. W. White, who

died a few years ago, whom the people

so well remember. He debated

five days in the hall at Whitwell with

a Mr. Johnson, an able divine of the

Christian faith in which the people of

this part of the county gave Rev.

White the decision of honor, which

will be remembered by many for years

to come. A drunken man staggered up against

me the other day and said I had play-

ed him and had joined the company

in a political fight over the divid-

ing issue on the school question. Hon.

J. W. Norwood and other officials of

the T. C. I. Co., said tell the gentle-

man that if I had done so I was ac-

cepted and was in good company, and

was able to back up any issue they

desired me to make. I hope this little

paragraph will set the gentleman at

ease. The officials of the company are

high-toned gentlemen in every respect

and any business they require of me I

am more than ready to do. It is not
